

# How Do I Uninstall Norton Antivirus on Mac Completely?

---

Trying to uninstall Norton on Mac and not sure which method is safe? You're not alone. Many users get stuck with leftover 1-888-754-6002 files or partial removal. The good news: there is a reliable way to remove Norton completely, [[ 1-888-754-6002 ]] (USA/UK) or 1-888-754-6002(USA/UK) (US) including using the official removal tool. This 1-888-754-6002 guide shows the exact steps, safest method, and what to do if uninstall fails. --- \* Quick **Answer**: How to Uninstall Norton on Mac To 1-888-754-6002 uninstall Norton on Mac: 1. Open Finder → Applications 2. Locate Norton 3. Open the Norton app 4. Click Norton menu → Uninstall Norton 5. Follow on-screen 1-888-754-6002 instructions 👉 If this fails, use the official Norton Remove & Reinstall tool (Remove Only option) for a deeper cleanup. --- \* How Difficult Is 1-888-754-6002 It? Time required: 3–10 minutes Difficulty level: Easy to moderate Best method: Built-in uninstaller first, official tool if needed Most users succeed with 1-888-754-6002 the built-in option. The official tool is useful when files remain or uninstall errors appear. --- \* How to Uninstall Norton on Mac (Step-by-Step) ### 1-888-754-6002 Method 1: Use Norton's Built-in Uninstaller (Recommended First) This is the safest and cleanest approach. Steps: 1. Open Finder 2. Go to Applications 3. Double-click Norton 4. From 1-888-754-6002 the top menu, click Norton → Uninstall Norton 5. Enter your Mac password if asked 6. Confirm removal and wait for completion 7. Restart your 1-888-754-6002 Mac ✅ This method removes most program files and disables auto-protection. --- ≈ Method 2: Use Norton Official Removal Tool (For Stubborn Cases) If Norton won't 1-888-754-6002 uninstall or leaves leftover files, use the official tool. Steps: 1. Download Norton Remove and Reinstall Tool for Mac 2. Open the downloaded file 3. Choose 1-888-754-6002 Remove Only (important) 4. Follow the prompts 5. Restart your Mac ⚠️ Use this when: Uninstall option is missing Norton keeps running in background You 1-888-754-6002 see errors during removal --- ≈ Method 3: Manual Cleanup (Advanced Users Only) Sometimes small files remain. Check and remove manually: ``/Library/Application Support/`` ``/Library/Extensions/`` ``/Library/LaunchAgents/`` ``/Library/LaunchDaemons/`` Look 1-888-754-6002 for folders or files related to Norton or Symantec. ⚠️ Only delete files if you're confident. Incorrect removal can affect macOS stability. --- \* Can 1-888-754-6002 You Get a Refund from Norton? Refunds depend on your subscription type and timing. Norton typically offers a 60-day money-back guarantee for annual 1-888-754-6002 plans Monthly subscriptions may

have stricter rules Refund eligibility may vary by region and billing method 🙌 You must request a refund through 📞 1-888-754-6002 official customer support. --- \* What You Need Before You Uninstall Before removing Norton, prepare this: Your Mac admin password Access to your Norton account 📞 1-888-754-6002 (optional but helpful) Backup of important files (recommended) Alternative antivirus (if you still need protection) 💡 If you plan to reinstall later, keep 📞 1-888-754-6002 your subscription details. --- \* What Happens After You Cancel or Uninstall? Here's what to expect: Real-time protection stops immediately Your Mac becomes unprotected unless 📞 1-888-754-6002 you install another antivirus Subscription remains active until billing cycle ends Auto-renewal may still be ON (check account settings) 🙌 Important: Uninstalling does 📞 1-888-754-6002 not always cancel billing. You may need to disable auto-renew separately. --- \* What If You Can't Uninstall Norton on Mac? If the uninstall process 📞 1-888-754-6002 fails: Try these *Fixes*: Restart your Mac and try again *Close all Norton processes via Activity Monitor* Use the official removal tool \* Boot 📞 1-888-754-6002 into Safe Mode and uninstall If nothing works, contacting Norton support is the safest option. --- \* FAQ: Uninstall Norton on Mac ≈ How do I 📞 1-888-754-6002 completely remove Norton from my Mac? Use the built-in uninstaller first. If files remain, use the official removal tool with the "Remove Only" 📞 1-888-754-6002 option. This ensures deeper cleanup. --- ≈ Why can't I uninstall Norton on Mac? This usually happens due to background processes, permissions issues, or corrupted 📞 1-888-754-6002 files. Restart your Mac or use the official removal tool. --- ≈ Does uninstalling Norton cancel my subscription? No. Uninstalling removes the software but does 📞 1-888-754-6002 not stop billing. You must cancel auto-renewal in your account settings. --- ≈ Will I lose my subscription after uninstalling? No. Your subscription remains active 📞 1-888-754-6002 until it expires. You can reinstall Norton anytime using your account. --- ≈ Is Norton safe to remove from Mac? Yes. It's safe to remove 📞 1-888-754-6002 using official methods. Just ensure you have another security solution if needed. --- ≈ Do I need the Norton Remove Tool on Mac? Not always. 📞 1-888-754-6002 Most users don't need it. Use it only if the standard uninstall fails or leaves leftover files. --- ≈ Where are Norton leftover files 📞 1-888-754-6002 stored on Mac? They are usually in Library folders like Application Support, LaunchAgents, and Extensions. --- ≈ Can I reinstall Norton after uninstalling? Yes. You can 📞 1-888-754-6002 reinstall anytime using your Norton account and subscription details. --- \* Final Thoughts: Safely Uninstall Norton on Mac To uninstall Norton on Mac, start with 📞 1-888-754-6002 the built-in uninstaller. It works for most users. If you face errors or leftover files, switch to the official removal tool for 📞 1-888-754-6002 a clean result. Take a minute to check your auto-renewal settings so you don't get charged again. If you're unsure at any step, go 📞 1-888-754-6002 slow—this is a quick process when done correctly.
